WITHOUT A WEBSITE— YOUR BUSINESS DOESN'T EXIST

The fact is, without a website, your organization, club, or business is missing out on a huge section of today's population. People find information about businesses, charities, and attractions by using online search engines. **Without a website—people don't know you're there—you simply don't exist!**

DOES YOUR WEBSITE SUCK?

DO YOU EVEN HAVE A WEBSITE?

Having no website at all, or having a boring, outdated website that doesn’t portray your business positively can virtually kill you in today’s E-Market. Don’t let this happen to you!

WEBSITE DESIGN AND E-MARKETING

can be time consuming and expensive. Unscrupulous designers may even charge high fees for making simple changes or corrections or hijack and steal your website all together. You have to be cautious to choose a website firm that is going to care about you, is honest, and offers straightforward, up-front costs through out the process.

WHY CHOOSE US?

Choosing a website designer for your business can be much like trying to stack stones—it requires patience, perseverance and just a little bit of luck.

B2 Studios is an independent, *minority owned and operated* website design firm located in Galena, IL. We cater specifically to small businesses, non-profit organizations, civic & community groups and individuals.

We believe your business’ website should be unique to your business , not a cookie cutter template downloaded thousands of times from the internet.

TIME AND COST SAVINGS

Most clients don’t realize that a unique, individualized website actually costs less to design than converting a template or trying to re-design something someone else created. B2 Studios has the capability to capture your existing site right from the web to use existing language and graphics you’ve already developed to save you time and money.

WE WANT YOU TO REALIZE YOUR DREAMS

We believe that by working closely with our client to truly know you and your business, we can create just the right look for you.

Clients choose colors, fonts, Images, and provide the script or text for the website. B2 Studios is happy to incorporate existing marketing materials, color schemes, and design elements to your new website—creating a simple, elegant, seamless marketing tool to help you get the word out about your business or organizational mission.
